Look beyond the customary horizon and interact with global market leaders alongside Dataxis to address the big question, "What Next?"

### ADVERTISING

**CTV Ad Days** seeks to create opportunities where brands, media agencies, operators and technology providers exchange ideas for a more efficient usage of the TV and OTT platforms as an advertising medium. Team up with Dataxis to keep up with recent developments and explore the dichotomy of programmatic, addressable and TV advertising strategies.

### BROADBAND

The upcoming **Next Giga Connect** conferences emphasises on technological shifts in the telco and media space. Addressing the future of high-speed connectivity, prospects of fixed 5G, satellite broadband, gigabit access and smart WIFI will be at the crux of Dataxis' focus.

### MOBILE

**Next Mobile** will be a new hub for the mobile industry, with panel discussions led by the key players in this new value chain based on "coopetition" to understand the new roles and opportunities of sharing and collaboration.

### RETECH DAYS

**Retech Days** is designed to explore the role of smartphones' refurbishment industry in promoting the circular economy, an economic paradigm that seeks to keep resources in use for as long as possible, extracting as much of their value as possible before recovering and regenerating them.
